

ARRIVAL OF THE STEAMER ILLINOIS—IMPORTANT FROM CALIFORNIA.

New York, Oct. 18, 8 P. M.
The steamer Illinois, from Chagres and Kingston, arrived this morning. She brings three hundred and seventy-four passengers and \$1,857,353, of which sum \$350,000 was in the hands of passengers.

We have California dates to the 15th of September. The result of the late election was not known to a certainty, but the Morning Post, Whig, is inclined to think that party is beaten.

The San Francisco papers were discussing the question of the vigilance committee. The Morning Post publishes an article which lashes severely that self-constituted tribunal.

Marysville was visited by another destructive fire on the 10th of September. It broke out in the liquor store of Mitchell & Muses, on the south side of First street.

Miners upon the bars are averaging from two to three ounces daily. The quartz mines of the Sierra Nevada mountains are every day giving fresh evidence of inexhaustibility.

Dr. Rosencraft, who has returned to San Francisco from the mountains, had concluded favorable treaties with eight tribes of Indians.

The rainy season commenced a month and a half earlier than usual.

The votes for Governor, as far as heard from, give Reading 11,531 and Rigler 13,100. For the Legislature, as far as heard from, five whig Senators and two democrats and thirteen whig Assemblymen and thirty-three democrats are elected.

Mines on Feather river have been very successful. The grand jury of San Francisco asked to be discharged, in consequence of the exercise of the pardoning power by the Executive, but was refused.

A duel between Capt. Folsom and A. E. Russell took place at San Francisco on the 11th of September. No damage was done.

The Illinois brings Kingston dates to the 8th. She made the run from Chagres to New York in seven days and sixteen hours, being the quickest trip on record. She brings the California mails and a large amount of specie: Adams & Co. \$478,000; Drew & Robinson \$400,000; Vandyke & Trevor \$50,000; Wells & Co. \$45,000; Brown & Brothers \$20,000; Belcher & Co. \$250,000; Howland & Aspinwall \$32,000; and to forty-seven other amounts ranging from \$20,000 to \$100,000.

The Panama Railroad was opened to Gatura on the 10th. The whole force is pushing the road rapidly forward from Gatura to Gorgona.

Among the passengers by the Illinois were 70 persons who had made at the mines \$1,000.

Intelligence from all the mining districts was very encouraging.

Intelligence from the Sandwich Islands states that Mr. Power had obtained a contract from the Hawaiian Government for the exclusive right to establish steam communication between several ports of the Hawaiian kingdom.

There is afflicting intelligence from the North Pacific whaling fleet. The schooner Curlew, from Honolulu, was boarded by the ship John Wells, of New Bedford, which reported the following vessels as totally lost among the ice in the Arctic Ocean, whilst on their way to Behring's Straits: Ajax, of Haver; Amanda, of New London; Henry Thompson, of New London; Arabella, of New Bedford; New Bedford, of New Bedford; America, of New Bedford; Cosmopolite, of France; and Mary Mitchell, of San Francisco. The crews are reported to have reached the land in safety, but it is said that eleven whalersmen afterwards lost their lives in a fracas with the natives. It is thought that sixty vessels shared a similar fate. The John Wells showed evidence of her share of perils, being nearly a wreck. The result this season of whaling is an entire failure, and the whole fleet of six hundred sail was proceeding to the Northwest Coast.

The specie train of the steamship company was robbed seven miles from Panama. The news flew like lightning through Panama, and merchants, officers, and soldiers started in hot pursuit of the robbers, whom they found in a state of confusion. Three of their guard were shot, when the robbers made off with one box of gold, but were quickly overtaken and captured. Thomas Simms and Charles Cronwell, both from New York, had ropes put around their necks, and, after being swung up until they were half dead, confessed who their confederates were. Dr. Berry, of New Orleans, and Luban Manning were also captured. Five others escaped, but will surely be captured.

A difficulty occurred between Kemble, editor of the Alta Californian, and Gov. McDougall, which led to a challenge from the former. The affairs were afterwards amicably adjusted.

A company has been organized to build a railroad from San Jose to Francisco.

The project for dividing the State continues to attract considerable attention. The convention would assemble on the third Monday in October.

The late rains had greatly improved the facilities for operations at the placers and mines.

Incendiarists fired Spanish Town on the 6th of September, which destroyed \$250,000 worth of property.

A disease resembling cholera was prevailing at San Francisco, particularly among the Chinese and the poorer classes.

A wicked wag once courted a buxom house-maid, and when he should have been prepared to marry her, decamped to parts unknown.

"Well, Ann," said her mistress "you've lost your lover, haven't you?"

"Oh, no, indeed, ma'am; he'll come back, for I have his promise to marry me, and in writing, too."

"Indeed, let me see it won't you?" So out from between the leaves of her bible, Ann produced a sort of promissory note, reading as follows:

I promise to marry Ann J., ninety days after date, value received. J. B.

Died.

On the 26th inst. in this place, Miss ELIZA JANE, oldest daughter of Samuel N. and Malinda L. Weston, aged 5 years, 5 months and 22 days.

"And art thou dead? The morn Of thy young lovely life is pallid! A bough, Fresh and flower laden, from existence torn— Oh, where art thou!"

Love could not shield; nor youth! Not leaviness nor high gifts and hopes could save; In all thy brightness, purity and truth, Gone to the grave!

Heaven claimed its own. Each grace Of mind and heart marked thee for the sky; Foretold the angel beaming from thy face, That thou must die!

Forever! And till we meet— Like star beams—where no parting comes nor ill, Spirit of love and light, O sister sweet, Be near us still!

ARMED RESISTANCE TO SLAVE CATCHERS—Southern Traffickers in Blood! TAKE HEED!

In the sacred name of Humanity, we earnestly call upon the

FRIENDS OF LIBERTY throughout the world, and fervently implore every human creature, upon the altar of whose heart there burns one spark of veneration for the priceless boon of

UNTRAMMELED FREEDOM, to take a voice in the general shout, now subdued, only to burst upon the appalled ears of the

SLAVE OWNER, with a ten-fold crushing force. Let every man pledge uncompromising hostility to the infamous "Fugitive Law," and until the "men in high places," revoke its obnoxious enactments, use his efforts to defeat its

BARBAROUS DECRETES! Let him wear by the hall and parlour a badge of his abhorrence of this unswerving fealty to their declaration, that

"All Men are Created Free and Equal" and avowing in the broad face of Heaven, his utter repugnance to that most unrighteous law, which fastens the fetters on the sacred limbs of the "down-trodden" African.

Let him swear to demand the "unalienable rights of liberty and the pursuit of happiness," as granted to all men by the Declaration of Independence, and to

ASSIST THE CAPTIVE in his efforts to cast off the manacles riveted by law, and the tyrant will of a

MERCILESS MASTER. Let him record his oath on the same page of his Country's History which recounts the bright deeds of his revolutionary sires, resolved to give "Aid and comfort" to the panting fugitive, and a dog's death to his traitor pursuer!

The above is the language sometimes used by ultra-anti-slavery advocates, to show their abhorrence of that peculiar institution, while others more mild, yet quite as firm in their opposition, adopt a more conciliatory tone.

Another class occupy a strictly neutral ground, upon the principle that there are men enough in the country to settle that vexatious question without their aid; among this class, occupying a very prominent position, may be found

Being conducted on both MUTUAL and STOCK PRINCIPLES, it combines the advantages of both systems, besides many not possessed by any Company conducted solely upon either of them. The following are some of the principles by which this Company is governed, and all must at once perceive both their

FAIRNESS AND LIBERALITY: 1st. They recognize the acts of their authorized Agents, both in making surveys and in issuing Policies; and to avoid litigation, arrange differences by arbitration at localities convenient for the insured.

2d. They promptly pay all losses for whom they become liable.

3d. They hold themselves responsible for losses and damages by lightning.
